

EXECUTIVE OFFICE OF THE PRESIDENT
OFFICE OF MANAGEMENT AND BUDGET
WASHINGTON, D.C. 20503

January 14, 2026
(House)

STATEMENT OF ADMINISTRATION POLICY
H.R. 7006 – Financial Services and General Government and National Security,
Department of State, and Related Programs Appropriations Act, 2026
(Rep. Cole, R-OK)

The Administration supports H.R. 7006, which makes appropriations for Financial Services and General Government, National Security, Department of State, and Related Programs for the fiscal year (FY) ending September 30, 2026.

The Administration is pleased that the Congress is advancing the appropriations process in a manner that avoids a bloated omnibus package and adheres to a fiscally responsible topline agreement that *decreases* overall discretionary spending. Importantly, this package includes funding for important Administration priorities at a rate that is nearly \$10 billion below current levels.

H.R. 7006 supports the Administration's efforts to realign foreign aid by significantly reducing spending, eliminating wasteful and harmful programs, consolidating accounts, and creating the new America First Opportunity Fund to furnish assistance that makes America safer, stronger, and more prosperous. The bill also acknowledges the closure of the United States Agency for International Development, which funded absurd and abusive projects and programs in the past, by eliminating billions across multiple accounts. In addition, the bill provides funding to support the Administration's efforts to repatriate illegal aliens to their home countries and other partner countries.

The bill supports critical White House operations to ensure the Administration can continue delivering for the American people. It also provides the Internal Revenue Service (IRS) the funding necessary to ensure an efficient tax filing season, while significantly reducing spending on unnecessary and previously-weaponized IRS enforcement. Finally, the bill robustly funds security in Washington, D.C. to support President Trump's efforts to keep D.C. safe ahead of major events like America250.

The Administration urges the Congress to support this fiscally responsible bill and looks forward to working with the Congress on the remaining appropriations bills to address key priorities and avoid another disastrous Government shutdown.

If this bill were presented to the President in its current form, his senior advisors would recommend that he sign it into law.
